

## 3M™ Particulate Respirator 8210, N95 160 EA/Case

3M Product Number 8210, 3M ID 70070614394, UPC 50051138464573

### Details

- NIOSH approved for at least 95 percent filtration efficiency against certain non-oil based particles
- Two-strap design with welded dual point attachment helps provide a secure seal
- Cushioning nose foam
- Adjustable noseclip helps provide a custom fit and secure seal
- Lightweight construction promotes greater worker acceptance and may help increase wear time
- Advanced electrostatic media is designed for ease of breathing
- SKU: 70070614394

This classic disposable N95 particulate respirator is designed to help provide comfortable, reliable worker respiratory protection against certain non-oil based particles.

3M™ Particulate Respirator 8210, N95 is a disposable particulate respirator that is designed to help provide reliable respiratory protection of at least 95 percent filtration efficiency against certain non-oil based particles. This respirator is designed for use for particles such as those from grinding, sanding, sweeping, sawing, bagging, or other dusty operations. This respirator can also help reduce inhalation exposures to certain airborne biological particles (examples: mold, Bacillus anthracis, Mycobacterium tuberculosis), but cannot eliminate the risk of contracting infection, illness, or disease. The respirator incorporates 3M's proprietary technology with advanced electrostatically charged microfiber filter media designed for ease of breathing. This respirator is compatible with a variety of protective eyewear and hearing protection.

This particulate respirator is NIOSH (National Institute for Occupational Safety and Health) approved for environments containing certain non-oil based particles and provides at least 95 percent filter efficiency.

Breathing hazardous particles can pose a risk to your health. NIOSH, a Federal government regulatory agency, has tested and approved the 3M Particulate Respirator 8210, which is designed to help reduce exposure to certain airborne particles.

**WARNING:** These respirators help reduce exposures to certain airborne contaminants. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. In the U.S., a written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see package instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

## Specifications

<b>Aerosol Type</b>	Non-Oil
<b>Boxes per Case</b>	8
<b>Class</b>	Comfort
<b>Color</b>	White
<b>Exhalation Valve</b>	No
<b>FDA Cleared</b>	No
<b>Features</b>	Advanced Electrostatic Media
<b>Flame Resistance (ASTM D2859-96)</b>	No
<b>Fluid Resistant (ASTM F1862)</b>	N/A
<b>National Stock Number</b>	4240014635449, 4240014292685
<b>Natural Rubber Latex Components</b>	No
<b>Number per Box</b>	20
<b>Packaging</b>	Bulk Case
<b>Product Type</b>	Dust and other Particles
<b>Recommended Industry</b>	Commercial buildings, Construction, Design & Construction, Food Processing, Food Safety, General Manufacturing, Heavy Infrastructure, Mining, Oil & Gas, Transportation
<b>Respirator Style</b>	Cup
<b>Size</b>	Standard
<b>Standards/Approvals</b>	N95
<b>US Govt Contract Number</b>	GS-07F-0374J
