# 5-3/8" 30T Ferrous Metal Blade

48-40-4070

## OVERVIEW

Milwaukee metal circular saw blades were specifically designed to exceed the expectations of contractors for blade life, cut quality, and speed in the most demanding metal cutting applications – without a lubricant. A hand-tensioned, hardened alloy steel body extends blade life and delivers the highest quality cuts available. Carbide tipped teeth with Alternate Top Bevel grind shear through metal leaving burr-free, cool-to-touch cuts. Designed for use with the M18™ Cordless 5-3/8" Metal Saw, these blades feature a thin kerf that reduces the amount of drag and resistance while cutting, resulting in more cuts per charge.

## PRODUCT DETAILS

### FEATURES

- ✓ Dry - No lubricant required, saving time and money with less mess
- ✓ Cool - No extreme heat buildup preserves blade life and allows handling the work piece immediately
- ✓ Clean - No burrs eliminates secondary operations saving time and money

### SPECIFICATIONS

Diameter	5-3/8"
Arbor Size	20mm
Number of Teeth	30
Hook Angle	0°
Kerf Thickness	.063"
Tooth Grind	ATB
Application	Ferrous Metal
