

## 3M™ Protecta®

### Roof Anchors

Create a secure anchor point on a variety of roof designs without damaging the structure. Our complete array of anchorage devices for sloped wood and flat commercial steel roofs can help you customize the fall protection solution that's right for your application.

#### Portable Reusable Roof Anchor 2104000

For use on flat or sloped wood roofs. Installs with 32 ea. #8 screws or 32 ea. 16d nails. Simple hinge-style design is extremely easy to transport, install, dismantle and store.

#### Knock-Down Disposable Roof Anchor Kit 2103680

Simply nail into sheathing and roof member. When job is complete, knock down or shingle over. Kit contains 12 anchors and nails.

#### Permanent Ridge Roof Anchor 2103678

Installs with nails at the roof ridge. Shingle over, leaving only the D-ring exposed. Provides fall protection during initial construction as well as for future homeowner.

#### Standing Seam Swiveling Roof Anchor 2190001

Portable and reusable anchor fits seam spacing of 12 in.-24 in. (30 cm-61 cm). Non-penetrating clamp design won't damage the roof. Universal self-retracting lifeline (SRL) cradle fits many 3M™ Protecta® Self-Retracting Lifelines (not large housing models), and swivels 360 degrees for maximum mobility. *Shown with SRL—must order separately.*

#### Metal/Wood Swiveling Roof Anchor 2190011

Portable and reusable anchor provides 360 degrees of mobility on sloped or flat wood and metal decking. Universal bracket accommodates many 3M™ Protecta® Self-Retracting Lifelines (not large housing models).

*Shown with SRL—must order separately.*
