NEW! Extra Coarse HD SCM: No other SCM disc is more aggressive.
 Available beginning June 2014.

siafix Locking Discs - Spectrum Wheels

Product profile

Grit type: aluminum oxide
 silicon carbide
 Grade range: removal; blending; finishing; polishing
 Bonding: grit-resin matrix

Advantages

- New grit is exposed as material wears down for extended lifetime
- Comprehensive product offering for full range of weld treatments
- Uniquely color-coded to precisely identify the provided finish

Application

- Ideal for use in tubular metal or areas with tight radiuses
- Perfect for dressing welds, from removal all the way to polishing
