

Broan® Selectable Speed Recessed Fan Light, 50 or 80 CFM

While the Broan® Recessed Fan/Light looks exactly like a standard recessed light, it also provides powerful ventilation. A simple switch just inside the fan housing adjusts power from 50 to 80 CFM to deliver the right level of ventilation for the powder room, bathroom, closet, laundry, nursery, shop or workout area. A standard E26 screw-in base ensures easy bulb replacement.

- 6" white trim matched to designs of major recessed light manufacturers
- Adjustable 50 or 80 CFM clears humidity, odor and airborne particulates and helps prevent mold and mildew
- 0.3/2.0 Sones for a quiet operating noise level
- Rugged, 26-gauge galvanized steel housing withstands moisture
- Plug-in, permanently lubricated motor engineered for continuous use
- Rated for up to 75W (bulb not included)
- Adjustable mounting brackets span up to 24" to simplify installation
- Fan and light can be wired to operate together or independently
- Motor assembly is removable for easy cleaning
- 4" duct connector with damper
- UL listed for use in insulated ceilings (type I.C.)
- UL listed for use over bathtubs or showers when connected to GFCI-protected branch circuit
- 3-year limited warranty
