

## PRODUCT SPECIFICATION REPORT

# ZEP LIQUID ICE MELT™ Ice Melting Compound

### DESCRIPTION

A liquid compound that rapidly melts ice and packed snow.

### FEATURES

- Acts instantly
- Non-corrosive to metal
- Less harmful to grass
- Helps prevent accidents
- Easy to use

### BENEFITS

- Does not have to dissolve, as do granular ice melting compounds, to be effective
- Does not contain corrosive salts and is thus non-corrosive to exposed metal surfaces
- Is less harmful to grasses and shrubs than ice melting compounds with sodium or calcium chlorides
- Removes hazardous ice and snow from walks, stairs, driveways, and entrances
- Since product is a ready to use liquid, it may be sprayed unto vertical surfaces, such as windows and equipment

### APPLICATIONS

May be used by the following:

Hospitals  
Industrial plants

Schools  
Apartments

Shopping Centers

### COMPANION PRODUCTS

Zep AIO, Zep DZ-7, Zep Weed Defeat II, Zep Floor Finishes
