Architect/Engineer Specification

Chicago Faucets No. 1301-CP, Multiple Service Valve, combination triple service, chrome plated. Deck mounted. Serrated, full-flow laboratory nozzle. Includes shank assembly. May be used with most laboratory gases. 909 Valve is Certified for Gas Service per ANSI Z21.15/CSA 9.1 by the Canadian Standards Association. Mounting hardware included. Secondary control valve: Rigid/swing gooseneck spout, 5-1/4" center-to-center. Serrated, full-flow laboratory nozzle. 2-1/2" metal, vandal-proof, cross handle with eight-point, tapered broach and button indexed "CW". Slow compression rebuildable cartridge, opens and closes 360° for fine adjustment, closes with water pressure, features square, tapered stem.

Operation and Maintenance

Installation should be in accordance with local plumbing codes. Flush all pipes thoroughly before installation. After installation, remove spout outlet or flow control and flush faucet thoroughly to clear any debris. Care should be taken when cleaning the product. Do not use abrasive cleaners, chemicals or solvents as they can result in surface damage. Use mild soap and warm water for cleaning and protecting the life of Chicago Faucet products. For specific operation and maintenance refer to the installation instructions and repair parts documents that are located at www.chicagofaucets.com.

Chicago Faucets, member of the Geberit Group, is the leading brand of commercial faucets and fittings in the United States, offering a complete range of products for schools, laboratories, hospitals, office buildings, food service, airports and sport facilities. Call 1.800.TECTRUE or 1.847.803.5000 Option 1 for installation or other technical assistance.
