

IRWIN 4-Point Snap Blades

IRWIN® 4-Point snap blades combine the toughness of a traditional blade with the functionality of a snap blade. When one edge dulls, just snap the tip for another sharp tip. With four cutting edges, these blades are built to last twice as long as traditional carbon blades.

1. Snaps on the score for new sharp tip
2. Four notches for full blade extension

2X
MORE CUTS
vs. traditional carbon blades

Bi-Metal Utility Blades

2084100

- Bi-Metal blade stays sharp 3X longer than traditional carbon blades
- Shatter-proof

Bi-Metal Safety Blades

2088100
