# ERGO•FOLD™ KEY SETS

## Feel The Difference!

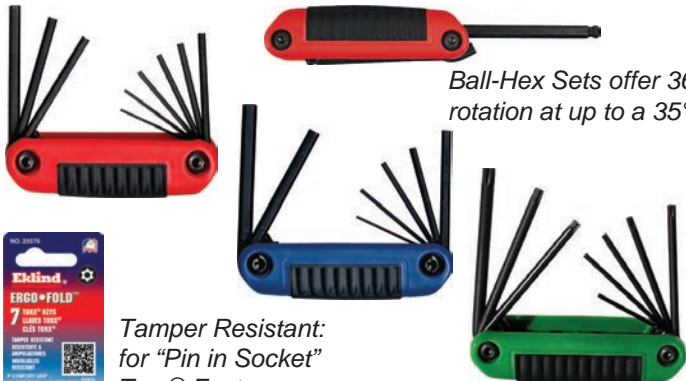

Ergo-Fold™ Key Sets feature a composite grip handle shaped for superior ergonomics. A soft cushion-grip insert offers comfort and slip resistance, while a hard shell provides maximum strength. Eklind keys provide extra reach for safer clearance from your work.

Eklind Ergo-Fold™ Key Sets can be used at a right angle to generate maximum torque. Additionally, they can be used as a screwdriver, with the key folded out to a firm stop. As with all other Eklind Hex Key products, we use the highest quality Eklind Alloy Steel™ that is heat treated for superior strength and finished to resist rust. Eklind keys provide maximum torque and wear resistance.
