

THE CLAM FLANGE

The **only** product that uses **extra-thick T-409 stainless steel** to resist rust & corrosion!

Unique design snaps around & UNDER PVC collar to provide excellent structural support!

Don't just fix it--make it better with "the Clam"!

Step 1: Remove corroded steel ring.

Step 2 & 3: Snap the "Clam Flange" around the flange collar & screw to floor.
