

Lightning Fast Connections from OmegaFlex®

The new patent pending **AutoSnap®** fittings are the only CSST fittings that do not require any disassembly or reassembly of the fitting to the CounterStrike® CSST.

This greatly reduces installation difficulty and time as there are no small loose gaskets, O-rings, or retainer rings to contend with in a dark and/or cold work place environment!

AutoSnap is CSA listed and features a metal to metal cup seal without any exposed stainless steel pipe behind the new fitting.

Reduced torque value and reusability all make for an optimum installer friendly fitting!
