**Manufacturer Part No:** 3925

**Item UPC:** 6-50056-03925-9

Komelon's 25' Power Tape is affordable and functional. This is all because the Power Tape has what most users look for in a tape measure. The Power Tape has a thick, high carbon steel blade, a triple riveted end hook, and an extremely durable ABS case. Throw it around, drop it, this tape measure will do what you ask of it. It will provide accurate measurement and will last for a long time. Yes, it's our base model but the Power Tape doesn't act like it. As a basic functioning measuring tool, this Komelon tape measure is superior to its competition.
