

## RASP

When working with plywood, plastics, wallboard or other soft materials, rasps are the file of choice for cabinet makers and woodworkers. The teeth of a rasp are uniform and individually formed.

### HALF-ROUND RASP

Rasp cut on top and bottom – Both edges are single cut.

Length	Diameter	GROBET			GROBET SWISS		
		Bastard Cut	Second Cut		Bastard Cut	Second Cut	
8"	5/16"	32.503	32.507		32.503S	32.507S	
10"	3/8"	32.504	32.508		32.504S	32.508S	
12"	1/2"	32.505	32.509		32.505S	32.509S	
14"	5/8"	32.506			32.506S		

### ROUND RASP

Rasp cut.

Length	Diameter	GROBET SWISS	
		Bastard Cut	
8"	5/16"	32.50301S	
10"	3/8"	32.50401S	

## ROUND

When holes need enlarging and corners rounding, a round file is the solution. This file tapers making it adaptable to a variety of hole sizes.

Double cut.

Length	Diameter	GROBET			GROBET SWISS		
		Bastard Cut	Second Cut	Smooth Cut	Bastard Cut	Second Cut	Smooth Cut
4"	5/32"	32.395	32.402	32.408	32.395S	32.402S	32.408S
6"	7/32"	32.396	32.403	32.409	32.396S	32.403S	32.409S
8"	5/16"	32.397	32.404	32.410	32.397S	32.404S	32.410S
10"	3/8"	32.398	32.405	32.411	32.398S	32.405S	32.411S
12"	1/2"	32.399	32.406	32.412	32.399S	32.406S	32.412S
14"	5/8"	—	—	—	32.400S	—	—

Note: See pages 39 -41 for our complete file handle line, including charts on plastic file handles.
