

SCRATCH BRUSHES

Maintenance Brushes

The blocks of all Osborn Scratch Brushes are kiln-dried hardwood for maximum tuft retention, even in severe applications. Skilled workmanship assures you of uniform distribution of fill materials and firmly anchored tufts.

The wire fill used in Osborn Scratch Brushes provides outstanding cutting ability and offers an extremely high degree of fatigue resistance. The high-quality, staple-set wire provides long effective brush life.

PLATER'S FINE WIRE SCRATCH BRUSH - SOLID WOOD BLOCK

These handy, hardwood block brushes are indispensable for many hand brushing jobs in plating processes and fine metal finishing work.

Brush Area Length	Brush Area Width	Overall Length	Row Count	Trim Length	Std Pk	Part No.
