

PRODUCT SPECIFICATION REPORT

Elec II Plus is a nonflammable, nonconductive, VOC compliant electrical contact cleaner for circuit boards and electronic parts. This product quickly removes oil, grease, lint, flux, dirt, moisture from electronics without leaving a residue.

ELEC II PLUS

PROD.#0283

Aerosol Fast Evaporating Contact Cleaner

FEATURES/BENEFITS:

Excellent Material Compatibility	Quickly cleans sensitive electrical equipment without causing harm to materials.
Fast Evaporating	Nonconductive solvent evaporates rapidly for quick cleaning of electrical components.
Non-residual	Leaves no residue allowing for safe cleaning of sensitive electrical equipment.
Aviation Specifications	Meets Boeing D6-17487 and Douglas CSD #1 specifications for general purpose solvent cleaner for aircraft.

Note: Elec II Plus is generally compatible with materials used in electronics and electrical cleaning applications. However, solvent compatibility should be determined on a non-critical prior to use. May damage stressed plastic.

APPLICATIONS:

Use on: circuit boards, precision instruments, electrical contacts & switches, timers and relays, tape heads, tuners, automatic counters, radio receivers & transmitters, recorders, telephone equipment. Particularly useful in: Small Engine Repair, Airports/Aviation Services, Service Stations, Automotive Repair Shops, Heavy Equipment Maintenance, Telecommunications, Printing Industry, and Schools & Educational Services

COMPANION PRODUCTS:

Aerosolve II, Power Solv 5000, Dyna 170, Formula 50, Reach, Cherry Bomb, Zep 45, Solv, Zep 2000, Zepreserve

SPECIFICATIONS:

Physical Form	Aerosol
Color	Colorless
Odor	Solvent
Flammability	Non-flammable by CSMA Flame Extension
Shelf Life	1 Year Minimum
D.O.T. Shipping Label	ORM-D

PACKAGING:

16 fl. oz. can
