

TECHNICAL DATA SHEET

ADW Hand Film

PROPERTY		UNITS	TEST METHOD	TYPICAL RESULT
Thickness		mil (micron)	D4649	0.80 (20.3)
Dart Impact Strength		g	D1709	100
Tensile Strength @ Break	MD	psi	D882	5,800
	TD			3,200
Elongation @ Break	MD	%	D882	380
	TD			600
Elmendorf Tear Strength	MD	g	D1922	140
	TD			580

The data presented above is for the product type described and is based on random tests that are not statistically valid. The values should only be used for reference and are not to be used for any type of specification. The film producer does not monitor these values or manufacture to these values. Please be advised that values are known to change based on normal manufacturing variables such as production line, and lot to lot variations of raw materials. There is no guarantee expressed or implied regarding the use of this information or its suitability for a particular application.
