FEATURES

Wattage
20

Connector
ML

Lifespan
50,000 hours

Certification
UL

- Exclusively designed for LED products used indoors
- Switch mode power supply with 24VDC constant output voltage

SA40655

24V 20W Driver with 12 Port ML Block - Use this driver with GREEN color coded products. This LED solution provides overload protection, open circuit protection, short circuit protection, and heat protection. The control gear will restart automatically after the fault conditions are removed for quick recovery of your lighting.
