

Jackel

18" X 24" Sump Basin

The SF22A is our premium residential sump basin. Constructed from ultra strong, heavy duty structural foam, the SF22 will provide decades of unfaltering service. The SF22 has our strongest, thickest rim, the 360 Degree EZ Grab™ handle. It also incorporates our heavy duty, non-corrosive nylon encapsulated inserts allowing the SF22 to be gas/radon tight and prohibits odor escape. The ultra-strong hex reinforced bottom will not buckle, deform or puncture, even under the harshest soil or ground water conditions.

Jackel...We Build You The Best!

Specifications

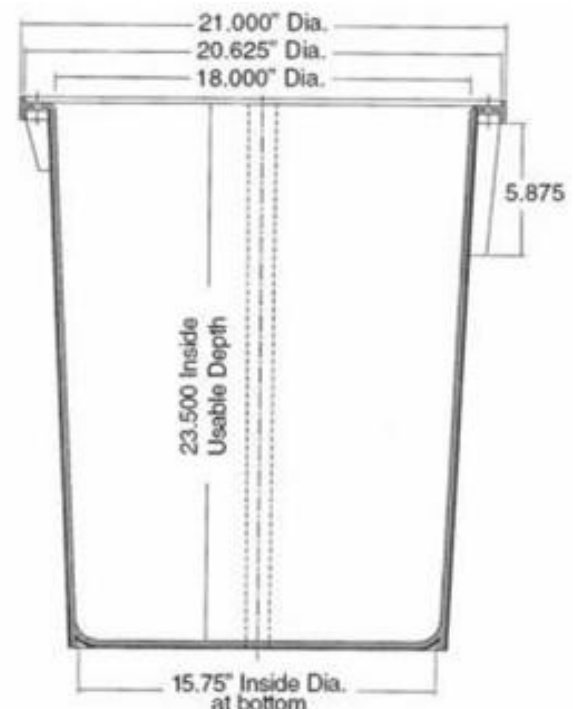

- **Material:** Injection molded high density structural foam
- **Inserts:** Glass filled nylon
- **Weight:** 12 lbs.
- **Total Capacity:** 22.5 gallons

Part Number: SF22
