

Honeywell 5500 Series Half Mask

Product description

The Honeywell 5500 series half mask is the economical choice for the occasional user or contractor. The Honeywell 5500 has many of the same features as the 7700 mask, but is made with a thermoplastic elastomer material which is extremely soft & non-allergenic for comfort and fit. A Contoured sealing flange eliminates discomfort caused by pressure points on facial nerves. Design of nose area provides excellent comfort and fit.

FEATURES

- No chance of latex allergens economy masks
- Only 9 replacement parts – and all parts are replaceable meaning they are quick and easy to strip down and clean
- Latex free means No latex allergens & are safe for your workers with allergies
- Low “dead air” space means Less exhaled breath is re-breathed which encourages Increased worker productivity
- Strategic placement of exhalation valve allows more breath to be exhaled out of the mask faster leaving workers feeling cooler & more comfortable
- Variable thickness in sealing area means the nose area is flexible enough to conform to the bridge , it provides Superior comfort without sacrificing fit of the nose, but not too thin to collapse
- Built up chin area supports the mask, maintains fit even while the wearer is talking

APPLICATIONS

- Suits various applications requiring respiratory protection against various contaminants
