Description

Zilmet's ZEP1 is designed as a thermal expansion tank for tankless water heaters with up to 2 gallons of total water volume with a set point of 140°F or less. The tank comes with a factory precharge of 50 PSIG. The ZEP1 is 304 stainless steel construction with an adjustable air valve for serviceability.

- Can be used in systems with recirculation loops.
- Additional applications include shock suppression (Fixture Unit Capacity of 11, A-size) and variable speed systems.
- Uses include: high corrosive areas, rain water collection, marine, food processing, breweries, auto manufacturers, hospitals.
- The ZEP1 is NSF61 certified, UPC certified and IAPMO listed.

Construction:

Shell: 304 Stainless Steel
 Connection: 304 Stainless Steel
 Factory Precharge: 50 PSIG
 Membrane: Butyl
 Color: Stainless Steel

Performance Limitations

Max Design Temperature: 140F
 Max Operating Temperature: 210F
 Max Operating Pressure: 150 PSIG
